DETAILED ACTION

Claim Rejections - 35 USC § 112

1. Claims 30-33 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 30 recites, 'a set of at least one processing modules for performing programmable processing tasks defined within a set of processing modules'. The Examiner is unsure as to what 'a set of at least one processing modules...' is because a set of consists of two or more, so the Examiner is unclear of what Applicant is trying to state with this limitation concerning the number or arrangement of processing modules because the specification states processors and multiprocessor. Also, it is unclear as to what is 'the set of processing modules' and 'a set of system processing modules' as well that is recited within claim 30.

Allowable Subject Matter

2. Claims 1-20,21-25 are allowed.

3. The following is a statement of reasons for the indication of allowable subject matter: The reason for the allowance of claims 1-20 is the inclusion of the following limitations: 'copying a first region of low memory, booting the computer system, and writing the image of memory outside the first region of low memory to a long term storage volume.' The reason for the allowance of claims 21-25 is the inclusion of the following limitations: 'a Smear program which when operated configures said computer system to allow it to prepare a long term storage to receive data contents of said computer's main memory after said computer system is restarted subsequent to said

freezing, a Consolidator program which when operated on a computer having access to said save data contents to allow it to organize and format said saved data content appropriated for later access and use by a debugging program.'

Response to Arguments

4. Applicant's arguments with respect to claims 1-25,30-33 have been considered; however, claims 30-33 have been rejected in view of the newly added limitations and their 112 2nd issues as indicated in the above rejection of those claims. The previous 112 2nd paragraph rejections, 101 rejections, canceling of claims 26-29, and objections have been acknowledged.

Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
